

Machine cup grease

Product designed for lubrication of various bearings, joints and guideways. It works in temperatures from -30°C to 140°C at high loads. Resistant to washing-out with cold water. Provides protection against corrosion.

Physicochemical properties	
State of matter	paste
Odor	characteristic, typical oil
Color	brown
Density at 20 °C	-0,9 g/cm ³
Penetration after kneading at 25 °C	280 0.1 mm
Lubricating properties; important welding	245 daN
Droplet temperature	268 °C
Operating temperature	-30 to 140 °C
Solubility in water	not soluble

Application:

- bearings,
- guideways,
- provides protection against corrosion.

Packagings:

Volume	Type of packaging	Collective packaging	Item Code
65 ml	squeezer	6	ART.AGT-078

Warehousing:

Store in a well-ventilated, cool, dry place, avoid direct sunlight and frost. Keep unused packaging tightly closed.
